¹ Trial participants (participants with initial plans approved prior to 1 July 2016) and those with initial plans approved after the end of 2022-23 Q2 have been excluded.

² Plans less than 31 days in duration have been excluded from this tabulation, as these reassessments are more likely to represent corrections to the plan rather than a new plan reassessment to address a change in circumstance.

³ The number of CALD participants excludes First Nations participants.

⁴ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants (participants with initial plans approved prior to 1 July 2016) are excluded.

• The PSG metrics are based on the recommendations of the 2019 Tune Review. The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022. It introduces changes that provide greater flexibility for participants and the NDIA to amend plans.

¹ PSG results in the previous quarter may be restated due to ongoing logic refinement and changes in data quality.

² "n/a" means that results cannot be measured.

³ ECA means Early Childhood Approach.

Provider and market metrics

Inflation within a plan, between reassessments (current quarter % per annum)	10.1%	10.2%
Socioeconomic equity (%) ⁶	103%	104%

- Total annualised plan budgets at 30 June 2023 were \$3,860m and payments from 1 July 2022 were \$2,958m.
- The number of active providers at the end of June is 3,154, growing by 3% in the quarter.
- Utilisation has been 76% from 1 October 2022 to 31 March 2023, with 8% (1 out of 12) of service districts in South Australia more than 10 percentage points below the adjusted national benchmark.
- There were no service districts where the top 10 providers provide more than 70% of payments.

Distribution of service districts by plan utilisation ²

Distribution of service districts by market concentration

Service districts more than 10% below plan utilisation benchmark:

- Far North (SA): 64% vs 75% benchmark

Service districts having between 45% and 70% of payments going to the 10 largest providers:

- Far North (SA): 61% vs 70% benchmark
- Limestone Coast: 59% vs 70% benchmark
- Murray and Mallee: 53% vs 70% benchmark

¹ Active providers refer to those who have received payment for supports provided to Agency-managed participants and plan managers.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in Supported Independent Living (SIL) in each service district and the length of time participants have been in the Scheme.

³ Total annualised plan budgets refer to those in the current plans of active participants at the end of quarter.

⁴ Total plan inflation consists of plan budget changes occurring at plan reassessment as well as changes occurring within a plan between reassessments.

⁵ In the latest financial year, inflation in South Australia has increased at a higher rate than other States. This is due to an increasing number of participants who received Supported Independent Living (SIL) benefits through the in-kind program transitioning to receiving SIL benefits directly from their plan budgets. On plan reassessment, the SIL component of these plans has increased to reflect this change.

⁶ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).

Summaries by Service Districts

Active participants by service district ¹

Average annualised plan budgets and average payments (\$) ^{2 3}

Average annualised plan budgets and average payments - Participants in Supported Independent Living (SIL) (\$) ^{2 3}

Average annualised plan budgets and average payments - Participants not in SIL (\$) ^{2 3}

- Northern Adelaide has the highest number (17,888) of active participants, while Far North (SA) has the lowest (573).
- The average annualised plan budget at the end of June for active participants is \$73,500 (\$52,300 for participants not in SIL and \$435,000 for participants in SIL).
- The average payment for the 12 months ending 30 June 2023 is \$59,800 (\$38,300 for participants not in SIL and \$422,000 for participants in SIL).
- Eastern Adelaide has the highest average annualised plan budgets and payments across all participants.

¹ There are 43 active participants at 30 June 2023 residing in 'Other' service districts. 'Other' includes participants with service district information missing. The average annualised plan budgets and average payments for this group are not shown.
² Figures are not shown if there is insufficient data in the service district.
³ Average annualised plan budgets are derived from total annualised plan budgets in the current plans of active participants at 30 June 2023. Average payments are calculated as the average of the annualised monthly payments in the same 12 month period, weighted by the participants that are active in each month.
