## Disability Reform Council Quarterly Performance Report

Victoria - 31 December 2018

# Overview

This report is a summary of the performance and operations of the NDIA in Victoria for Quarter 2 of 2018-19 (01 October 2018 - 31 December 2018).

It is the tenth quarterly report during the NDIS Transition period, which commenced on 1 July 2016.

# Summary

## Participants and Planning

An additional 8,605 participants with plans this quarter.

At 31 December 2018, plans approved and ECEI referrals represent:

- 77% of year to date bilateral estimate met (1 July 2018 - 31 December 2018)
- 81% of scheme to date bilateral estimate met (1 July 2013 - 31 December 2018)

Participant satisfaction has decreased in the quarter but remains high, with 77% of participants surveyed rating their satisfaction with the Agency's planning process as either 'Good' or 'Very Good'.

## Committed Supports and Payments

\$2.4 billion has been paid to providers and participants:

- \$32.5m in 2013-14,
- \$128.3m in 2014-15,
- \$160.9m in 2015-16,
- \$332.3m in 2016-17,
- \$935.9m in 2017-18,
- \$819.2m in 2018-19 to date.

Overall,

- 61% of committed supports were utilised in 2013-14,
- 79% in 2014-15,
- 79% in 2015-16,
- 67% in 2016-17,
- 65% in 2017-18.

The 2018-19 experience is still emerging.

The lower proportion of utilisation in 2016-17 and 2017-18 reflects the increased amount of participants who received their first plans in these years. Participants tend to utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

## Providers and Markets

There were 6,027 registered providers at 31 December 2018, representing a 10% increase for the quarter.

44% of registered providers were active at 31 December 2018.

40% of registered providers are individuals/sole traders.

25% of registered providers are receiving 85-90% of payments made by the NDIA.

## Mainstream Interface

89% of active participants with a plan approved in 2018-19 Q2 access mainstream services.

# Participants and Planning

As the transition phase to full scheme continues, the NDIS in Victoria continues to grow with 8,605 additional participants with approved plans this quarter.

In total, over 60,000 participants are now being supported by the NDIS in Victoria, with approximately 20% receiving support for the first time.

# Summary

The NDIS is transitioning to full-scheme according to phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

Note 1: Of the 1963 active participants identified as having an intellectual disability, 252 (13%) have Down syndrome.

Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.

# Participant Profiles by Level of Function

These bar charts show demographic profile of active participants with a plan approved in 2018-19 Q2, compared with plan approvals at 30 September 2018, by level of function.

For participants with a plan approval in the current quarter:

- 24% of active participants had a relatively high level of function
- 46% of active participants had a relatively moderate level of function
- 30% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.

# Plan Management Support Coordination

The proportion of participants electing to fully or partly self-manage their plan was higher in 2018-19 Q2 at 29%, compared with 26% in previous quarters combined.

49% of participants who have had a plan approved in 2018-19 Q2 have support coordination in their plan, compared to 47% in previous quarters combined.

## Support Coordination

Prior quarters (transition only)

2018-19 Q2

# Plan Activation

Plan activation refers to the amount of time between plan approval and the commencement of the participant receiving support.

The percentage of plans activated within 90 days of approval were:

- 77% of plans approved in prior quarters
- 80% of plans approved in 2017-18 Q4.

Duration to Plan activation for initial plans

Prior Quarters (Transition Only)

2017-18 Q4

Plan activation can only be approximated using data on payments. As there is a lag between when support is provided and payments made, these statistics are likely to be conservative. That is, it is likely that plan activation is faster than presented. Further, in-kind supports have been excluded from the calculation, which contributes to the conservative figures.

Note: Plans approved after the end of 2017-18 Q4 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.

# Participant Outcomes

Information was collected from 99.6% of participants who have received their initial plan since 1 July 2016 (baseline outcome measures).

- 65% of participants aged 0 to before school are able to make friends outside of family/carers, compared to 59% of participants from school age to 14
- 54% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 33% - 37% for other age groups
- 59% of participants from school age to 14 attend school in a mainstream class, compared to 26% of participants aged 15 to 24
- 22% of participants aged 25 and over have a paid job, compared to 15% of participants aged 15 to 24
- 63% of participants aged 25 and over choose what they do every day, compared to 39% of participants aged 15 to 24

Selected key baseline indicators for participants

# Family/Carers Outcomes

The percentage of participants' family/carers:

- working in a paid job was highest for participants aged 15 to 24 (50%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (76%)
- who have friends and family they can see as often as they like was highest for participants aged 25 and over (45%)
- who feel in control selecting services was highest for participants aged 25 and over (40%)
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (84%)

Selected key baseline indicators for families and carers of participants

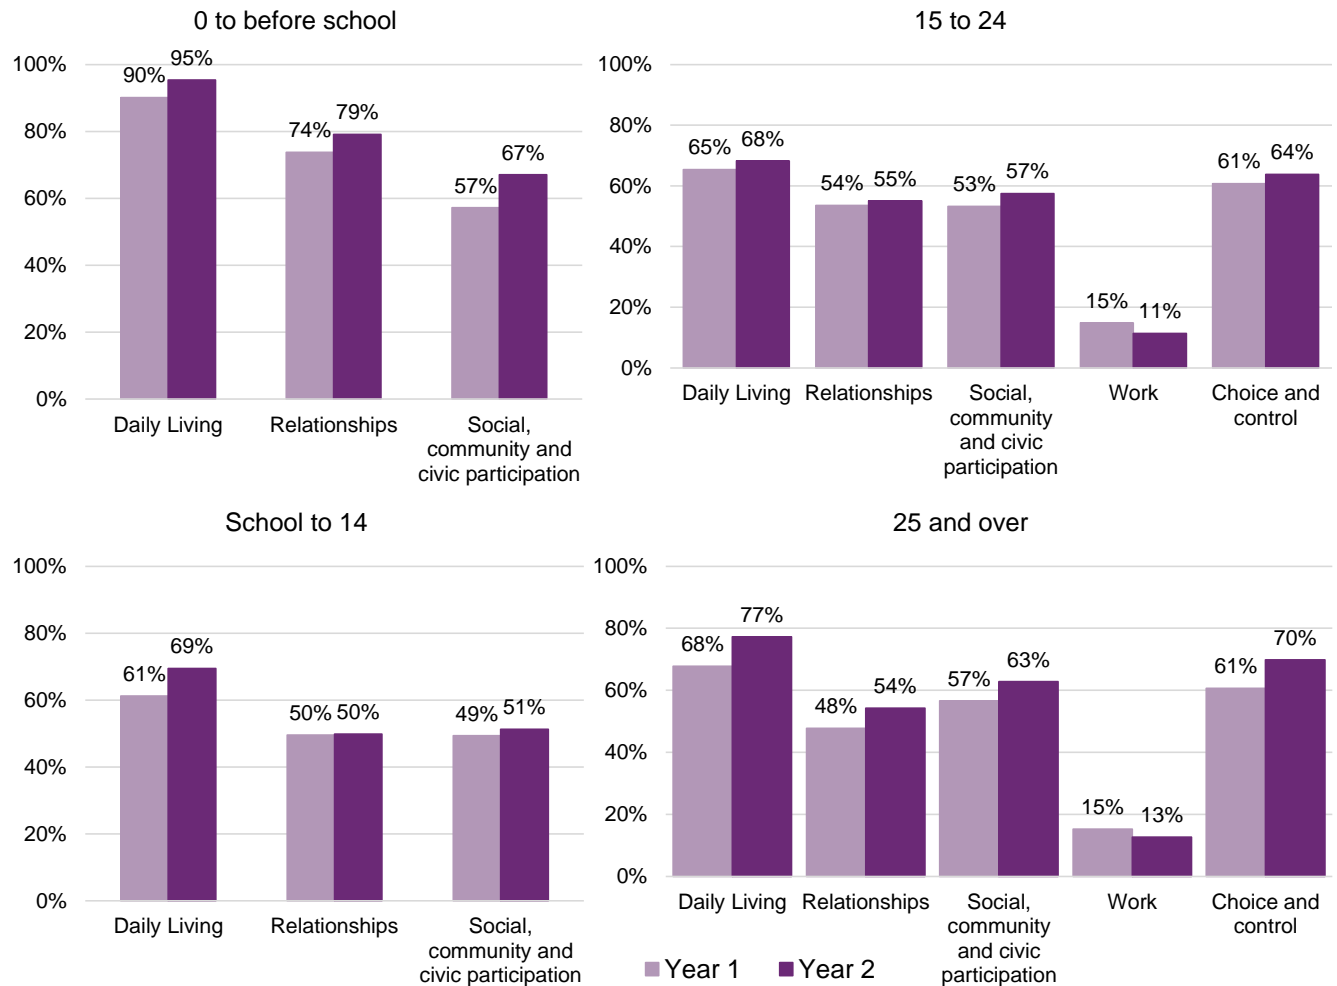

# Has the NDIS helped? Participants

## Perceptions of whether the NDIS has helped.

Participants who entered the Scheme between 1 July 2016 and 31 December 2016 and had a plan review approximately one year later and also two years later were asked questions about whether the NDIS had helped them.

In general, participants' perceptions of whether the NDIS has helped improved from year one to year two, with the exception of the Work domain.

"Has the NDIS helped?" questions for participants

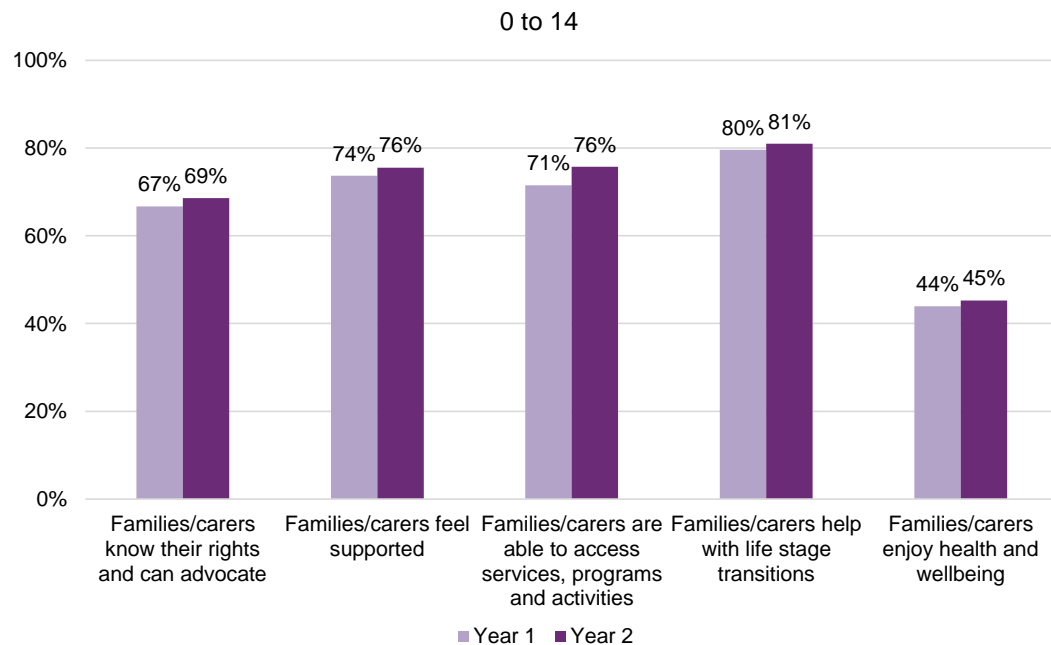

# Has the NDIS helped? Family/Carers

## Perceptions of whether the NDIS has helped.

Families and carers of participants who entered the Scheme between 1 July 2016 and 31 December 2016 and had a plan review approximately one year later and also two years later were asked questions about whether the NDIS had helped them.

Overall, family and carers' perceptions of whether the NDIS has helped improved from year one to year two.

"Has the NDIS helped?" questions for families and carers of participants

Note: There was insufficient data to report for participants aged 15 and over for this quarter.

## Participants in Work

Participants who entered the Scheme between 1 July 2016 and 31 December 2016 and are of working age are monitored to see whether the NDIS has helped them find paid work.

The percentage of participants in paid work increased from 9% to 16% for those aged 15 to 24, but decreased from 18% to 17% for those aged 25 and over. Overall, the percentage increased from 16% to 17%.

## Participants involved in communal and social activities

Participants who entered the Scheme between 1 July 2016 and 31 December 2016 are monitored to see whether the NDIS has helped them participate in social activities in their community.

The percentage of participants engaged in social activities in their community increased from 35% to 40% for those aged 15 to 24 and increased from 35% to 41% for those aged 25 and over. Overall, the percentage increased from 35% to 41%.

NDIS Participants participating in social activities in their community, by age group.

# Participant Satisfaction

**77% of participants rated their satisfaction with the Agency's planning process as either good or very good in the current quarter. This has decreased since the last quarter with sufficient data but remains high.**

**A new participant satisfaction survey has been developed. Going forward it will better record the experience of NDIS participants, and their families and carers, at different stages of the participant pathway.**

Participant satisfaction continues to be high, but has fluctuated at around or below the trial site level.

**Proportion of participants describing satisfaction with the Agency's planning process as good or very good - by quarter**

Note: Participant satisfaction results are not shown if there is insufficient data in the group.

# Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Of the \$3.8 billion that has been committed in participant plans, \$2.4 billion has been paid to date.

## Summary

This section presents information on the amount committed in plans and payments to service providers and participants.

# Committed Supports and Payments

Committed supports by year that the support is expected to be provided, compared with committed supports that have been used (paid).

Of the \$3.8 billion that has been committed in participant plans, \$2.4 billion has been paid to date.

In particular, for supports provided in:

- 2013-14: \$32.5m has been paid
- 2014-15: \$128.3m has been paid
- 2015-16: \$160.9m has been paid
- 2016-17: \$332.3m has been paid
- 2017-18: \$935.9m has been paid
- 2018-19 to date: \$819.2m has been paid

Committed and paid by expected support year

Total committed	53.1	162.7	203.0	493.1	1,434.6	1,475.5	3,822.0
Total paid	32.5	128.3	160.9	332.3	935.9	819.2	2,409.1

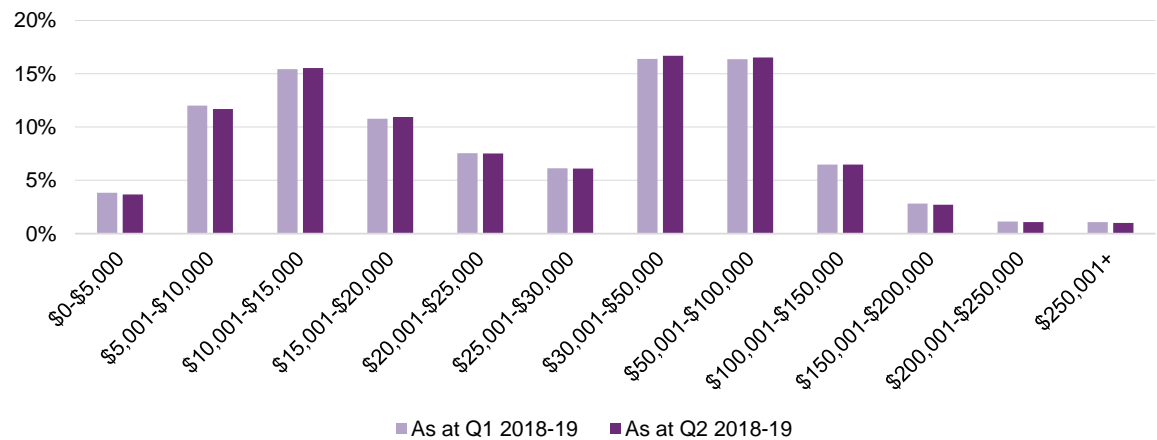

# Committed Supports by Cost Band

As at 2018-19 Q2, the distribution of average annualised committed supports remained consistent with previous quarters. This is the case whether Supported Independent Living (SIL) supports are included or excluded in the figures.

Distribution of average annualised committed supports by cost band (including SIL)

Distribution of average annualised committed supports by cost band (excluding SIL)

# Committed Supports by Age Band

The average annualised committed supports increase steeply up to age 19, stabilise to age 64 and then reduce at older ages.

Average annualised committed supports by age band

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Committed Supports by Disability Group

Participants with Cerebral Palsy, Spinal Cord Injury and Acquired Brain Injury have the highest average annualised committed supports.

Average annualised committed supports by primary disability group

# Committed Supports by Level of Function

The average annualised committed supports generally increase for participants with lower levels of function.

Average annualised committed supports by level of function

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group.

Note 2: High, medium and low function is relative within the NDIS population and not comparable to the general population.

# Utilisation of Committed Supports

Utilisation of committed supports by year that the support was expected to be provided as at 30 September 2018, compared with 31 December 2018.

As there is a lag between when support is provided and when it is paid, the utilisation in 2018-19 will increase.

Lower utilisation in 2016-17 and 2017-18 is predominantly driven by the large number of participants who received their first plan in these years. Participants utilise less of their first plan compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

The utilisation of committed supports in 2018-19 will increase further as there is a lag between when support is provided and when it is paid.

# Providers and Markets

The scale and extent of the market continues to grow, with a 10% increase in the number of providers during the quarter to 6,027.

44% of approved providers were active in Victoria at 31 December 2018, and 56% were yet to have evidence of activity.

## Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

### Provider registration

- To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA.
- Providers register with the NDIA by submitting a registration request, indicating the types of support (registration groups) they are accredited to provide.

### How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.
