## Disability Reform Council Quarterly Performance Report

Queensland - 31 March 2019

# Overview

This report is a summary of the performance and operations of the NDIA in Queensland for Quarter 3 of 2018-19 (01 January 2019 - 31 March 2019).

It is the eleventh quarterly report during the NDIS Transition period, which commenced on 1 July 2016.

# Summary

## Participants and Planning

An additional 10,201 participants with plans this quarter.

At 31 March 2019, plans approved and ECEI referrals represent:

- 62% of year to date bilateral estimate met (1 July 2018 - 31 March 2019)

- 59% of scheme to date bilateral estimate met (1 April 2016 - 31 March 2019)

Participant satisfaction has increased in the quarter, with 90% of participants surveyed rating their satisfaction with the Agency's planning process as either 'Good' or 'Very Good'.

## Committed Supports and Payments

\$1.4 billion has been paid to providers and participants:

- \$0.3m in 2015-16,
- \$111.2m in 2016-17,
- \$495.7m in 2017-18,
- \$837.7m in 2018-19 to date.

Overall,

- 32% of committed supports were utilised in 2015-16,
- 56% in 2016-17,
- 63% in 2017-18.

The 2018-19 experience is still emerging.

## Providers and Markets

There were 5,405 registered providers at 31 March 2019, representing a 16% increase for the quarter.

42% of registered providers were active at 31 March 2019.

40% of registered providers are individuals/sole traders.

25% of registered providers are receiving 80-90% of payments made by the NDIA.

## Mainstream Interface

91% of active participants with a plan approved in 2018-19 Q3 access mainstream services.

# Participants and Planning

As the transition phase to full scheme continues, the NDIS in Queensland continues to grow with 10,201 additional participants with approved plans this quarter.

In total, over 46,000 participants have now been supported by the NDIS in Queensland, with 27% receiving support for the first time.

# Summary

The NDIS is transitioning to full-scheme according to phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

# Quarterly Intake

## 2018-19 Q3

Of the 5,080 participants deemed 'eligible' this quarter 52% were 'New' participants (i.e. had not transitioned from an existing State/Territory or Commonwealth program).

Of the 10,201 plan approvals this quarter, 59% had transitioned from an existing State/Territory program, 87% entered with a permanent disability and 561 were previously confirmed as ECEI at 2018-19 Q2.

## Quarterly Intake Detail

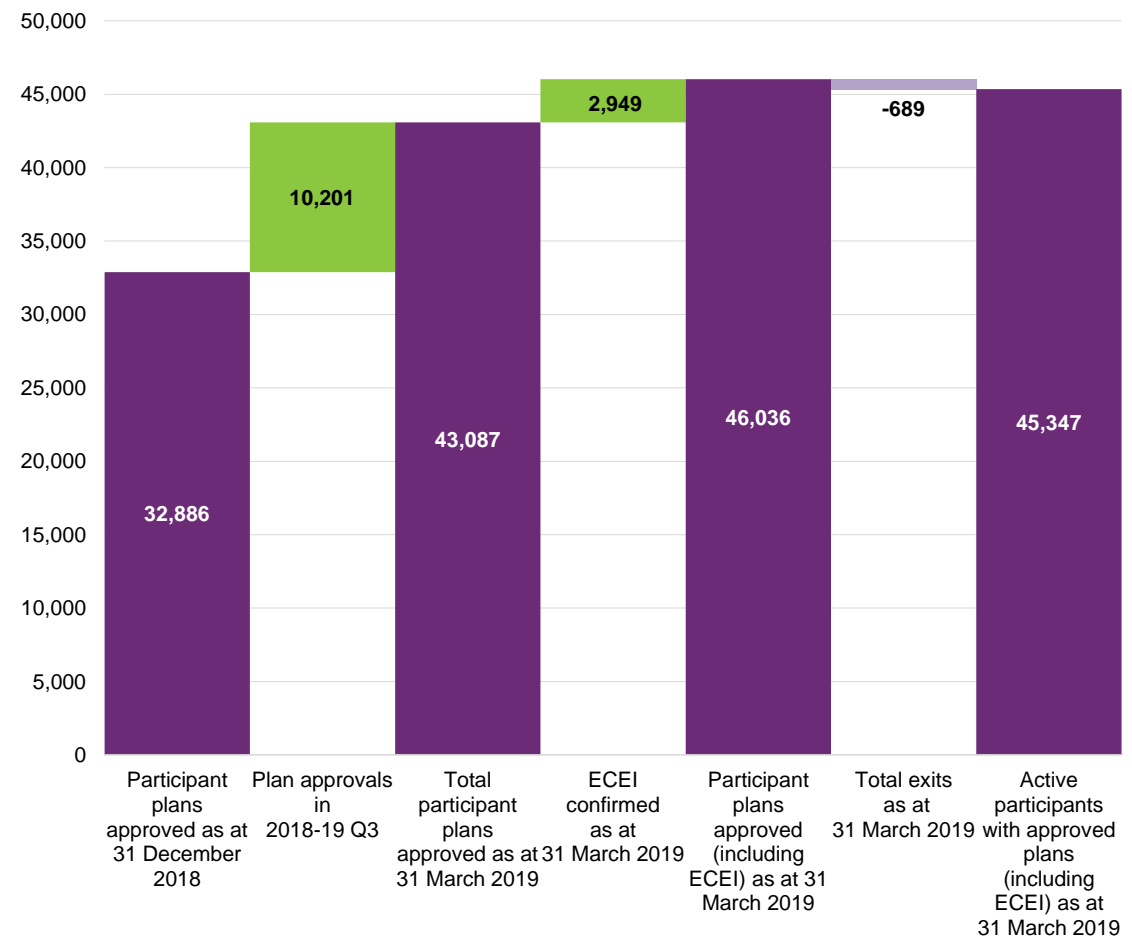

Plan approval numbers have increased from 32,886 at the end of 2018-19 Q2 to 43,087 by the end of 2018-19 Q3, an increase of 10,201 approvals.

At the end of the quarter, 2,949 children are being supported in the ECEI gateway. Of these, 1,562 were previously confirmed as ECEI at 31 December 2018 and an additional 1,387 children entered the gateway this quarter.

Overall, 689 participants with approved plans have exited the Scheme, resulting in 45,347 active participants (including ECEI) as at 31 March 2019.

There were 6,129 plan reviews this quarter. This figure relates to all participants who have entered the scheme.

Change in plan approvals between 31 December 2018 and 31 March 2019

# Cumulative Position

At the end of 2018-19 Q3, the cumulative total number of participants receiving support was 46,036 (including 2,949 children supported through the ECEI gateway). Of these, 26,575 transitioned from an existing State/Territory program, 4,238 transitioned from an existing Commonwealth program and 12,274 participants are now receiving support for the first time.

Overall, since 1 July 2013, there have been 59,528 people with access decisions.

Cumulative position reporting is inclusive of trial participants for the reported period and represents participants who have or have had an approved plan.

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q3

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Participant Profiles by Disability Group

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals at 31 December 2018, by disability group.

Of the participants entering this quarter, 29% have a primary disability group of Autism and 24% have a primary disability group of Intellectual Disability.

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q3

Note 1: Of the 2,463 active participants identified as having an intellectual disability, 402 (16%) have Down syndrome.  
 Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.

# Participant Profiles by Level of Function

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals at 31 December 2018, by level of function.

For participants with a plan approval in the current quarter:

- 21% of active participants had a relatively high level of function
- 45% of active participants had a relatively moderate level of function
- 34% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.

Note: An ICT issue has been identified and as a result, reporting by level of function is not accurate. This issue is currently under investigation and will be reconciled for reporting as at 30 June 2019.

# Participant Profiles by Gender

These charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals as at 31 December 2018, by gender.

The majority of participants are males.

# Participant Profiles

These bar charts show other demographic profiles of active participants with a plan approved in 2018-19 Q3, compared with plan approvals as at 31 December 2018.

Of the participants with a plan approved in 2018-19 Q3:

- 7.3% were Aboriginal or Torres Strait Islander, compared with 8.2% in previous periods combined.
- 1.6% were young people in residential aged care, compared with 1.8% in previous periods combined.
- 5.8% were culturally and linguistically diverse, compared with 4.6% in previous periods combined.

2018-19 Q3

# Plan Activation

Plan activation refers to the amount of time between a participant’s initial plan being approved, and the date the participant first receives support.

There has been a change in methodology used to calculate these results since the previous quarter. Duration to plan activation is now calculated as the time from a participant’s initial plan approval to when the participant first uses plan supports (previously only the initial plan for each participant was considered). In-kind supports are now also included (previously excluded). As a result, a higher proportion of participants are identified as activating their plans within 90 days, and a lower proportion have no payments.

The percentage of participants who activated plans within 90 days of initial plan approval was:

- 89% of participants entering in 2018-19 Q1
- 84% of participants entering in previous quarters

Plan activation figures are approximations based on payment data. As there is a lag between when the support is provided to a participant, and the payment being made, these statistics are a conservative estimate; it is likely plan activation is faster than presented.

Duration to Plan activation for participants with initial plan approval

Prior Quarters (Transition Only)

2018-19 Q1

- Less than 30 days    ■ 30 to 59 days    ■ 60 to 89 days
- 90 to 119 days    ■ 120 days and over    ■ No payments

Note: Participants with initial plans approved after the end of 2018-19 Q1 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.

# Participant Outcomes

This information on participant outcomes has been collected from 99.6% of participants who received their initial plan since 1 July 2016 (when they entered the scheme).

- 65% of participants aged 0 to before school are able to make friends outside of family/carers, compared to 59% of participants from school age to 14
- 49% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 31% - 40% for other age groups
- 55% of participants from school age to 14 attend school in a mainstream class, compared to 22% of participants aged 15 to 24
- 20% of participants aged 25 and over have a paid job, compared to 17% of participants aged 15 to 24
- 62% of participants aged 25 and over choose what they do every day, compared to 40% of participants aged 15 to 24

Selected key baseline indicators for participants

# Family/Carers Outcomes

The percentage of participants' families/carers when they entered the Scheme (baseline indicators):

- working in a paid job was highest for participants aged 15 to 24 (47%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (81%)
- who have friends and family they can see as often as they like was highest for participants aged 25 and over (46%)
- who feel in control selecting services was 45%
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (87%)

Selected key baseline indicators for families and carers of participants

# Has the NDIS helped? Participants

This data reflects participants' perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question 'Has the NDIS helped?' to individuals who entered the Scheme between 1 July 2016 and 31 March 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

Participant perceptions in general improve from year one to year two of participation in the NDIS. The greatest improvements were demonstrated in the experience of individuals in the 'School to 14 years old' bracket, especially regarding independence and personal relationships with family and friends.

"Has the NDIS helped?" questions for participants

# Has the NDIS helped? Family/Carers

This data reflects families and carers' perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question 'Has the NDIS helped?' to families and carers of individuals who entered the Scheme between 1 July 2016 and 31 March 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

For both groups of participants aged 0 to 14 years and 15 and over, family and carers' perceptions of whether the NDIS has helped improved from year one to year two.

"Has the NDIS helped?" questions for families and carers of participants

## Participants in Work

The NDIA is acutely aware of the benefits that employment brings to participants and tracks employment outcomes to see whether the NDIS has helped participants to find paid work.

Baseline measures on employment are collected as a participant enters the Scheme, after their first year and again at the end of their second year of the Scheme. This data relates to participants who entered the Scheme between 1 July 2016 and 31 March 2017.

The percentage of participants in paid work increased this quarter from 18% to 24% for those aged 15 to 24 and increased from 19% baseline to 20% for those aged 25 and over. Overall, the percentage of participants in employment increased from 19% to 21%.

NDIS participants in paid employment, by age group.

## Participants involved in community and social activities

The number of participants engaging in community and social activities is one of the key measures for ensuring quality experiences and outcomes for participants.

For participants who entered the Scheme between 1 July 2016 and 31 March 2017, levels of engagement in community and social activity are being tracked to see whether the NDIS has helped them to increase their participation.

Across all age groups, there was considerable increase in the percentage of participants engaged in community and social activities this quarter. The growth was most prevalent for the 15 to 24 age group, which saw an increase from 33% to 45%.

NDIS Participants participating in social activities in their community, by age group.

# Participant Satisfaction

**90% of participants rated their satisfaction with the Agency's planning process as either good or very good in the current quarter. This has increased since the previous quarter.**

**A new participant satisfaction survey has been developed. Going forward it will better record the experience of NDIS participants, and their families and carers, at different stages of the participant pathway.**

**Proportion of participants describing satisfaction with the Agency's planning process as good or very good - by quarter**

# Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Of the \$2.5 billion that has been committed in participant plans, \$1.4 billion has been paid to date.

This data shows the committed supports by the year they are expected to be provided, in comparison to the committed supports that have been paid.

Of the \$2.5 billion that has been committed in participant plans, \$1.4 billion has been paid to date.

Summary of committed supports paid in financial years since the NDIS launched:

- 2015-16: \$0.3m
- 2016-17: \$111.2m
- 2017-18: \$495.7m
- 2018-19 to date: \$837.7m

# Committed Supports by Cost Band

This quarter, the distribution of average annualised committed supports has remained consistent with prior quarters. This is the case whether Supported Independent Living (SIL) supports are included or excluded in the figures.

Distribution of average annualised committed supports by cost band (including SIL)

Distribution of average annualised committed supports by cost band (excluding SIL)

# Committed Supports by Age Band

This quarter, the average annualised committed supports have remained consistent with prior quarters, increasing steeply between participants 0-6 through to age 25, stabilising at age 55 and reducing in participants of older years.

Average annualised committed supports by age band

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Committed Supports by Disability Group

The highest average annualised committed supports are for participants with Spinal Cord Injury, Cerebral Palsy and Acquired Brain Injury.

Average annualised committed supports by primary disability group

# Committed Supports by Level of Function

The average annualised committed supports generally increase among participants with higher needs.

Average annualised committed supports by level of function

Note 1: High, medium and low function is relative within the NDIS population and not comparable to the general population.  
 Note 2: An ICT issue has been identified and as a result, reporting by level of function is not accurate. This issue is currently under investigation and will be reconciled for reporting as at 30 June 2019.

# Utilisation of Committed Supports

This data demonstrates the utilisation of committed supports by the year they were expected to be provided at 31 December 2018 and 31 March 2019.

As there is a lag between when support is provided and when it is paid, the utilisation in 2018-19 will increase.

Experience shows that participants utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

Utilisation of committed supports as at 31 December 2018 and 31 March 2019

# Providers and Markets

The provider network grows in scale and diversity, increasing participants' access to high quality services.

There were a total of 5,405 providers at 31 March 2019, representing a 16% increase on last quarter. Of these, 42% were active.

## Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

### Provider registration

- To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA.
- Providers register with the NDIA by submitting a registration request, indicating the types of support they are accredited to provide.

### How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.
