Disability Reform Council Quarterly Performance Report

Northern Territory - 30 June 2019

Overview

This report is a summary of the performance and operations of the NDIA in Northern Territory for Quarter 4 of 2018-19 (01 April 2019 - 30 June 2019).

It is the 12th quarterly report during the NDIS Transition period, which commenced on 1 July 2016.

Summary

Participants and Planning

An additional 419 participants with plans this quarter (excluding ECEI).

At 30 June 2019, plans approved and ECEI referrals represent:

- 49% of 2018-19 bilateral estimate met
- 50% of scheme to date bilateral estimate met (1 July 2014 - 30 June 2019)

Of the participants surveyed in the quarter, 84% rated their satisfaction with the Agency's planning process as either 'Good' or 'Very Good'.

Committed Supports and Payments

\$200.8 million has been paid to providers and participants:

- \$1.6m in 2014-15,
- \$4.1m in 2015-16,
- \$11.2m in 2016-17,
- \$65.4m in 2017-18,
- \$118.4m in 2018-19 to date.

Overall,

- 84% of committed supports were utilised in 2014-15,
- 73% in 2015-16,
- 57% in 2016-17,
- 65% in 2017-18.

The 2018-19 experience is still emerging.

The lower proportion of utilisation in 2016-17 and 2017-18 reflects the increased amount of participants who received their first plans in these years. Participants tend to utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

Providers and Markets

There were 848 registered providers at 30 June 2019, representing a 8% increase for the quarter.

20% of registered providers were active at 30 June 2019.

22% of registered providers are individuals/sole traders.

Mainstream Interface

96% of active participants with a plan approved in 2018-19 Q4 access mainstream services.

Participants and Planning

The NDIS in Northern Territory continues to grow with 419 additional participants with approved plans this quarter.

In total, over 2,400 participants have now been supported by the NDIS in Northern Territory, with approximately 27% receiving support for the first time.

Summary

The NDIS has been transitioning to full-scheme according to phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

Key Statistics

2,453

PARTICIPANTS HAVE NOW BEEN SUPPORTED BY THE NDIS IN NORTHERN TERRITORY, INCLUDING CHILDREN IN THE ECEI PROGRAM

419

INITIAL PLANS APPROVED IN 2018-19 Q4, EXCLUDING CHILDREN IN THE ECEI PROGRAM (REPRESENTING 22% GROWTH SINCE LAST QUARTER)

122

CHILDREN ARE BEING SUPPORTED IN THE ECEI PROGRAM, WITH 10 ADDITIONAL REFERRALS TO THE ECEI GATEWAY CONFIRMED IN 2018-19 Q4

50%

OF SCHEME TO DATE BILATERAL ESTIMATE MET (1 JULY 2014 - 30 JUNE 2019)

Quarterly Intake

2018-19 Q4

Of the 332 participants deemed 'eligible' this quarter 46% were 'New' participants (i.e. had not transitioned from an existing State/Territory or Commonwealth program).

Of the 419 plan approvals this quarter, 46% had transitioned from an existing State/Territory program, 73% entered with a permanent disability and 69 were previously confirmed as ECEI as at 2018-19 Q3.

Quarterly Intake Detail

Plan approval numbers have increased from 1,912 at the end of 2018-19 Q3 to 2,331 by the end of 2018-19 Q4, an increase of 419 approvals.

At the end of the quarter, 122 children are being supported in the ECEI gateway. Of these, 112 were previously confirmed as ECEI at 31 March 2019 and an additional 10 children entered the gateway this quarter.

The number of confirmed ECEI referrals reduced since 31 March 2019 due to children who moved out of the ECEI gateway since 31 March 2019 for a number of reasons including where the child has been referred to appropriate mainstream services. In other cases, children who were previously ECEI have had an initial plan approved during the quarter.

Overall, 53 participants with approved plans have exited the Scheme, resulting in 2,400 active participants (including ECEI) as at 30 June 2019.

There were 462 plan reviews this quarter. This figure relates to all participants who have entered the scheme.

Change in plan approvals between 31 March 2019 and 30 June 2019

Cumulative Position

At the end of 2018-19 Q4, the cumulative total number of participants receiving support was 2,453 (including 122 children supported through the ECEI gateway). Of these, 1,433 transitioned from an existing State/Territory program, 231 transitioned from an existing Commonwealth program and 667 participants are now receiving support for the first time.

Overall, since 1 July 2013, there have been 3,035 people with access decisions.

Cumulative position reporting is inclusive of trial participants for the reported period and represents participants who have or have had an approved plan.

Plan approvals by participant referral pathway

Participant Profiles by Age Group

Demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by age group.

33% of participants entering in this quarter are aged 0 to 6 years, compared to 13% in prior quarters.

Active participants with a plan approved in 2018-19 Q4 by age group

% of active participants with a plan approved by age group

■ % of active participants with a plan approved in prior quarters
 ■ % of active participants with a plan approved in 2018-19 Q4

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

Participant Profiles by Disability Group

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by disability group.

Of the participants entering in this quarter, 13% had a primary disability of Developmental Delay compared with 3% in previous quarters. The large increase was mainly driven by the increase in participants aged 0 to 6 years entering in this quarter.

Active participants with a plan approved in 2018-19 Q4 by disability group

% of active participants with a plan approved by disability group

■ % of active participants with a plan approved in prior quarters
 ■ % of active participants with a plan approved in 2018-19 Q4

Note 1: Of the 67 active participants identified as having an intellectual disability, 9 (13%) have Down syndrome.

Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.

Participant Profiles by Level of Function

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by level of function.

For participants with a plan approval in the current quarter:

- 40% of active participants had a relatively high level of function
- 40% of active participants had a relatively moderate level of function
- 20% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.

% of active participants with a plan approved by level of function

Participant Profiles by Gender

These charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by gender.

The majority of participants are males.

Participant Profiles

These bar charts show other demographic profiles of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019.

Of the participants with a plan approved in 2018-19 Q4:

- 46.6% were Aboriginal or Torres Strait Islander, compared with 53.3% in previous periods combined.
- 3.8% were young people in residential aged care, compared with 1.6% in previous periods combined.
- 25.2% were culturally and linguistically diverse, compared with 28.6% in previous periods combined.

Plan Management Support Coordination

The proportion of participants electing to fully or partly self-manage their plan was lower in 2018-19 Q4 at 17%, compared with 20% in previous quarters combined.

78% of participants who have had a plan approved in 2018-19 Q4 have support coordination in their plan, compared to 68% in previous quarters combined.

Prior quarters (transition only)

2018-19 Q4

Plan Activation

Plan activation refers to the amount of time between a participant's initial plan being approved, and the date the participant first receives support. In-kind supports are included.

The percentage of participants who activated plans within 90 days of initial plan approval was:

- 83% of participants entering in 2018-19 Q2
- 83% of participants entering in previous quarters combined

Plan activation figures are approximations based on payment data. As there is a lag between when the support is provided to a participant, and the payment being made, these statistics are a conservative estimate; it is likely plan activation is faster than presented.

Duration to Plan activation for participants with initial plan approval

Prior Quarters (Transition Only)

2018-19 Q2

- Less than 30 days
- 30 to 59 days
- 60 to 89 days
- 90 to 119 days
- 120 days and over
- No payments

Note: Participants with initial plans approved after the end of 2018-19 Q2 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.

Participant Outcomes

This information on participant outcomes has been collected from 100% of participants who have received their initial plan since 1 July 2016 (when they entered the scheme).

- 62% of participants from school age to 14 are able to make friends outside of family/carers, compared to 50% of participants aged 0 to before school
- 68% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 34% - 46% for other age groups
- 46% of participants from school age to 14 attend school in a mainstream class, compared to 21% of participants aged 15 to 24
- 17% of participants aged 25 and over have a paid job, compared to 13% of participants aged 15 to 24
- 51% of participants aged 25 and over choose what they do every day, compared to 33% of participants aged 15 to 24

Selected key baseline indicators for participants

Family/Carers Outcomes

The percentage of participants' families/carers when they entered the Scheme (baseline indicators):

- working in a paid job was highest for participants aged 15 to 24 (57%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (62%)
- who have friends and family they can see as often as they like was highest for participants aged 0 to 14 (50%)
- who feel in control selecting services was highest for participants aged 15 to 24 (37%)
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (83%)

Selected key baseline indicators for families and carers of participants

Has the NDIS helped? Participants

Perceptions of whether the NDIS has helped.

Participants who entered the Scheme between 1 July 2017 and 30 June 2018 and had a plan review approximately one year later were asked questions about whether the NDIS had helped them.

The percentage responding 'Yes' was highest for the domain of Daily Living for each age group with sufficient data to report.

The national report includes data on participants who entered the Scheme between 1 July 2016 and 30 June 2017, who were asked questions about whether the NDIS has helped them at the end of their second year of the Scheme (as well as at the end of their first year in the Scheme). This gives an indication of the effect of the NDIS on participants over a longer period of time. Due to insufficient data, results are not yet available for NT.

Note: There was insufficient data for participants aged 0 to before school

Has the NDIS helped? Family/Carers

Perceptions of whether the NDIS has helped.

Families and carers of participants who entered the Scheme between 1 July 2017 and 30 June 2018 and had a plan review approximately one year later were asked questions about whether the NDIS had helped them.

The NDIS has helped families and carers of participants most to access services, programs and activities and with life stage transitions.

"Has the NDIS helped?" questions for families and carers of participants

Participants in Work

The NDIA is acutely aware of the benefits that employment brings to participants and tracks employment outcomes to see whether the NDIS has helped participants to find paid work.

Baseline measures on employment are collected as a participant enters the Scheme, after their first year and again at the end of their second year of the Scheme. This data relates to participants who entered the Scheme between 1 July 2016 and 30 June 2017.

Overall, the percentage of participants in paid work increased from 6% to 7%.

NDIS participants in paid employment, by age group.

Note: There is insufficient data for the 15 to 24 participant age groups.

Participants involved in community and social activities

The number of participants engaging in community and social activities is one of the key measures for ensuring quality experiences and outcomes for participants.

For participants who entered the Scheme between 1 July 2016 and 30 June 2017, levels of engagement in community and social activity are being tracked to see whether the NDIS has helped them to increase their participation.

Overall, the percentage of participants engaged in social activities in their communities increased from 56% to 62%.

NDIS Participants participating in social activities in their community, by age group.

Note: There is insufficient data for the 15 to 24 participant age groups.

Participant Satisfaction

In 2018-19 Q4, the proportion of NT participants describing satisfaction with the Agency's planning process as 'Good' or 'Very Good' was 84%. There is insufficient data to present information on participant satisfaction in NT over time.

Participant Satisfaction - New Survey Method

A new participant satisfaction survey has been developed to better record the experience of NDIS participants and their families and carers at different stages of the participant pathway.

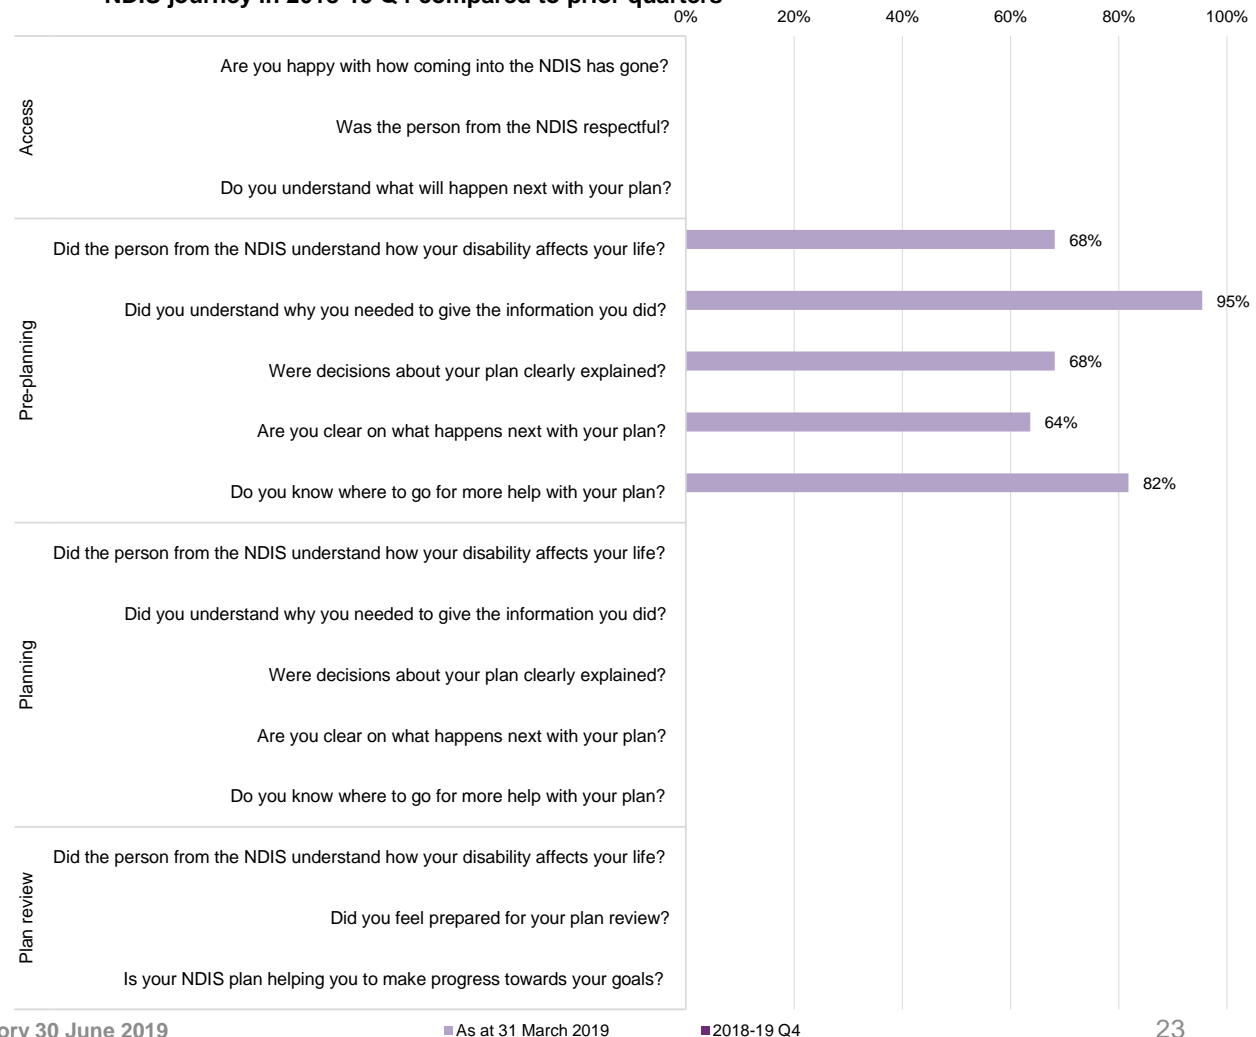

It began roll-out on 1 September 2018 and will become the primary tool for analysing participant experience. The new survey is designed to gather data at the four primary stages of the participant pathway:

- Access
- Pre-planning
- Planning
- Plan Review

There are limited results available for NT at this time due to the small numbers of participants surveyed to date. Generally at National level, there is still work required to improve participant understanding of the NDIS process and what happens next for individuals at each stage of the process.

Note: Participant satisfaction results are not shown if there is insufficient data in the group.

Proportion of participants who agreed with statements about the different stages of NDIS journey in 2018-19 Q4 compared to prior quarters

Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Of the \$333.2 million that has been committed in participant plans, \$200.8 million has been paid to date.

Summary

This section presents information on the amount committed in plans and payments to service providers and participants.

Key Statistics

SUMMARY OF PAYMENTS FOR SUPPORTS PROVIDED BY FINANCIAL YEAR SINCE THE NDIS WAS LAUNCHED:

2014-15:	\$1.6M
2015-16:	\$4.1M
2016-17:	\$11.2M
2017-18:	\$65.4M
2018-19:	\$118.4M

PERCENTAGE OF COMMITTED SUPPORTS UTILISATION BY FINANCIAL YEAR:

2014-15:	84%
2015-16:	73%
2016-17:	56%
2017-18:	65%

UTILISATION OF COMMITTED SUPPORTS IN 2018-19 IS STILL EMERGING.

Committed Supports and Payments

This data shows the committed supports by the year they are expected to be provided, in comparison to the committed supports that have been paid.

Of the \$333.2 million that has been committed in participant plans, \$200.8 million has been paid to date.

Summary of committed supports paid in financial years since the NDIS launched:

- 2014-15: \$1.6m
- 2015-16: \$4.1m
- 2016-17: \$11.2m
- 2017-18: \$65.4m
- 2018-19: \$118.4m

Committed and paid by expected support year

\$Million	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	Total
Total committed	N/A	1.9	5.6	19.9	100.4	205.4	333.2
Total paid	N/A	1.6	4.1	11.2	65.4	118.4	200.8

Committed Supports by Cost Band

This quarter, the change in the distribution of average annualised committed supports was driven by the indexation of plans to reflect 2019-20 price changes which was applied on 30 June 2019. This is the case whether Supported Independent Living (SIL) supports are included or excluded in the figures.

Distribution of average annualised committed supports by cost band (including SIL)

Distribution of average annualised committed supports by cost band (excluding SIL)

Committed Supports by Age Band

This quarter, the average annualised committed supports have increased compared to prior quarters. The increase was driven by indexation of plans to reflect 2019-20 price changes which was applied on 30 June 2019.

Average annualised committed supports increase steeply between participants 0-6 through to age 25, stabilising through to age 54 and reducing in participants aged 55 to 64 years. The large increase for the 65+ age group has also been driven by a small number of very large plan budgets approved in the quarter.

Average annualised committed supports by age band

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

Committed Supports by Disability Group

The highest average annualised committed supports are for participants with Multiple Sclerosis, Acquired Brain Injury and Spinal Cord Injury.

Average annualised committed supports by primary disability group

Note: Average annualised committed supports are not shown if there are insufficient data in the group.

Committed Supports by Level of Function

The average annualised committed supports generally increase among participants with higher needs.

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group.
 Note 2: High, medium and low function is relative within the NDIS population and not comparable to the general population.

Utilisation of Committed Supports

This data demonstrates the utilisation of committed supports by the year they were expected to be provided as at 31 March 2019 and 30 June 2019.

As there is a lag between when support is provided and when it is paid, the utilisation in 2018-19 will increase.

Experience shows that participants utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

There were a large number of participants who received their first plan in 2016-17 and 2017-18 which largely explains why utilisation rates are lower in these periods.

Experience for 2018-19 is still emerging.

Utilisation of committed supports as at 31 March 2019 and 30 June 2019

Providers and Markets

The provider network grows in scale and diversity, increasing participants' access to high quality services.

There were a total of 848 providers at 30 June 2019, representing a 8% increase on last quarter. Of these, 20% were active.

Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

Provider registration

- To provide supports to NDIS participants a service provider is required to register and be approved by the NDIA.
- Providers register with the NDIA by submitting a registration request, indicating the types of support they are accredited to provide.

How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.

Key Statistics

848

APPROVED PROVIDERS, 20% OF WHICH WERE ACTIVE IN NORTHERN TERRITORY AT 30 JUNE 2019

22%

OF SERVICE PROVIDERS ARE INDIVIDUALS / SOLE TRADERS

INNOVATIVE COMMUNITY PARTICIPATION HAS THE HIGHEST NUMBER OF APPROVED SERVICE PROVIDERS, FOLLOWED BY COMMUNICATION AND INFORMATION EQUIPMENT AND ACCOMMODATION / TENANCY ASSISTANCE

Providers over time

As at 30 June 2019, there were 848 registered service providers, of which 187 were individual/sole trader operated businesses and 661 were companies or organisations.

1.85
AVERAGE NEW PROVIDERS PER PARTICIPANT

Approved providers over time by type of provider

22% of approved service providers are individuals/sole traders.
The number of approved service providers increased by 8% from 783 to 848 in the quarter.

Proportion of Active Providers

As at 30 June 2019, 20% of providers were active and 80% were inactive.

Of the total providers, 99 began delivering new supports in the quarter.

Approved Registration Groups

The number of approved providers has increased for most registration groups over the quarter.

The registration groups with the largest numbers of approved providers continue to grow:

- Innovative Community Participation: from 216 to 238 (10% increase)
- Communication and information equipment: from 169 to 182 (8% increase)
- Accommodation / Tenancy Assistance: from 132 to 141 (7% increase)
- Assistance products for personal care and safety: from 113 to 125 (11% increase)
- Therapeutic Supports: from 94 to 118 (26% increase)

Approved providers by registration group and percentage change over the quarter

Active Registration Groups

The number of providers active in each registration group has increased for some registration groups over the quarter.

The registration groups with the largest numbers of active providers continue to grow:

- Therapeutic Supports: from 52 to 62 (19% increase)
- Assistance in coordinating or managing life stages, transitions and supports: from 43 to 49 (14% increase)
- Participation in community, social and civic activities: from 40 to 44 (10% increase)
- Daily Personal Activities: from 34 to 37 (9% increase)
- Assistance with daily life tasks in a group or shared living arrangement: from 27 to 32 (19% increase)

Active providers by registration group and percentage change over the quarter

Market share of top providers

There is insufficient data to present information around market share of the largest providers in the NT.

Information, Linkages and Capacity Building

Information, Linkages and Capacity Building was covered in the national version of the COAG Quarterly Performance Report

Mainstream Interface

The proportion of participants entering in the current quarter and accessing mainstream services is slightly higher compared to prior quarters.

Mainstream Interface

Of the total number of active participants with a plan approved in 2018-19 Q4, 96% access mainstream services, a slight increase from prior quarters. Participants are accessing mainstream services predominantly for health and wellbeing, daily activities and lifelong learning.

Financial Sustainability

Financial Sustainability was covered in the national version of the COAG Quarterly Performance Report.
