Service District Summaries

- TAS North has the highest number of active participants (2,631), while TAS South East has the lowest (1,994).
- TAS South West has the highest average annualised committed supports. This is partly driven by a higher proportion of SIL participants compared with other Tasmanian service districts.
- TAS South West has the highest utilisation at 75%, whilst TAS North has the lowest utilisation (70%).
- Only utilisation of committed supports from 1 January 2020 to 30 June 2020 is shown, as experience in the most recent 3 months is still emerging.

** Participant satisfaction results for 2019-20 Q4 have been restated using data as at 30 September 2020 due to retrospective changes in the underlying data. These changes mainly arise from lags in data collection.

*** There is insufficient data to report on the participant satisfaction survey results relating to the Access stage for 2019-20 Q4 and the Plan review stage for both 2019-20 Q4 and 2020-21 Q1.
