¹ This is an annualised exit rate for participants aged 0 to 14 with approved plans and those who received early connections.

² Participants who joined the Scheme prior to 1 July 2016 and those with initial plans approved after the end of 2020-21 Q4 have been excluded.

³ Plans less than 31 days in duration have been excluded.

⁴ The number of CALD participants excludes Indigenous participants.

⁵ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants are excluded. Except for the parent and carer employment rate, participants aged 15 and over are included. The Baseline results are at Scheme entry.

• The Participant Service Guarantee (PSGs) timeframes shown in the table above have not yet been legislated and continue to be developed.

¹ The results for the timeframes shown are based on preliminary calculations and the methodology used to determine the timeframes may change going forward. As a result, PSG results in the previous quarter may be restated due to logic changes.

² The NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date. Plans are extended automatically if they have not been reviewed before expiry so participants have continuity of support.

- Total annualised plan budgets at 31 December 2021 were \$34,391m and payments from 1 July 2021 were \$13,193m.
- The number of active providers at the end of December is 17,461, growing by 2% in the quarter.
- Utilisation was 74% from 1 April 2021 to 30 September 2021, with 10% (8 out of 80) of service districts in Australia more than 10 percentage points below the adjusted national benchmark.
- In 9% (7 out of 80) of service districts, the top 10 providers provide more than 85% of payments.

Distribution of service districts by plan utilisation ²

Distribution of service districts by market concentration

Service districts more than 10% below benchmark:

- NT East Arnhem: 38% vs 70% benchmark
- SA Far North (SA): 56% vs 72% benchmark
- NT Darwin Remote: 53% vs 66% benchmark
- NSW Far West: 60% vs 73% benchmark
- SA Eyre and Western: 60% vs 72% benchmark
- WA Kimberley-Pilbara: 58% vs 69% benchmark
- WA Wheat Belt: 58% vs 68% benchmark
- NT Barkly: 66% vs 77% benchmark

Service districts with more than 90% of payments going to the 10 largest providers:

- NT East Arnhem: 90% vs 85% benchmark
- WA Midwest-Gascoyne: 90% vs 85% benchmark

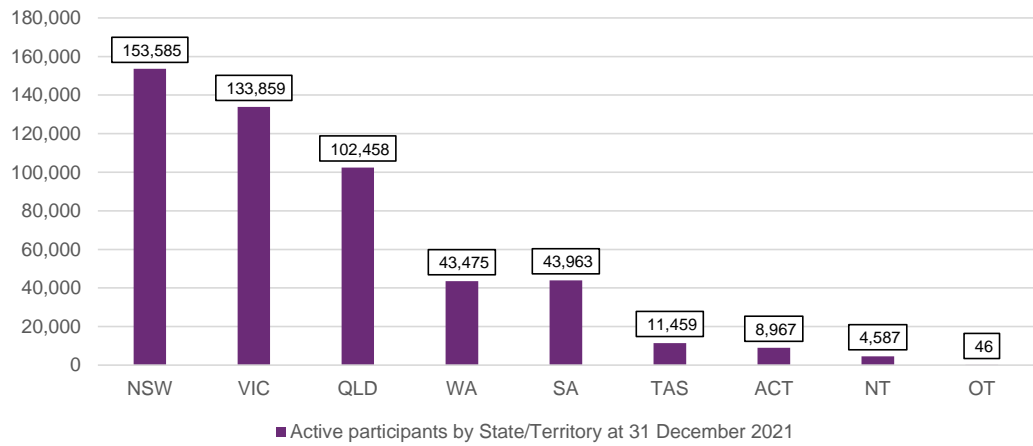

¹ Active providers refer to those who have received payment for supporting Agency-managed participants.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

³ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).

Summaries by State/Territory

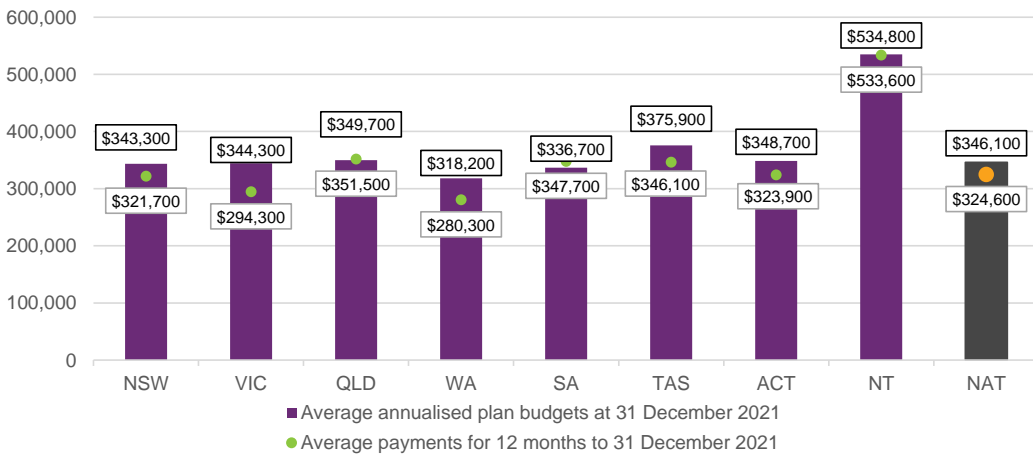

Active participants by State/Territory ¹

Average annualised plan budgets and average payments (\$) ²

Average annualised plan budgets and average payments - Participants in Supported Independent Living (SIL) (\$) ²

Average annualised plan budgets and average payments - Participants not in SIL (\$) ²

- NSW has the highest number (153,585) of active participants.
- The average annualised plan budget at the end of December for active participants is \$68,500 (\$53,300 for participants not in SIL and \$346,100 for participants in SIL).
- The average payment for the 12 months ending 31 December 2021 is \$54,900 (\$39,400 for participants not in SIL and \$324,600 for participants in SIL).
- NT has the highest average annualised plan budgets and payments. This is partially driven by a higher proportion of participants in SIL compared to other States/Territories.

¹ There are 14 active participants at 31 December 2021 with missing State/Territory information. These participants are not shown in the chart above.

² Given the small size of the Other Territories (OT) and missing groups, average annualised plan budgets and average payments for these groups are not shown.
