<sup>1</sup> Participants who joined the Scheme prior to 1 July 2016 and those with initial plans approved after the end of 2021-22 Q3 have been excluded.

<sup>2</sup> Plans less than 31 days in duration have been excluded.

<sup>3</sup> The new definition is included under s49 of the NDIS Act (2013) and replaces the previous definition of plan review.

<sup>4</sup> The number of CALD participants excludes First Nations participants.

<sup>5</sup> The Outcome results include participants who have been in the Scheme for at least two years. Trial participants are excluded. Except for the parent and carer employment rate, only participants aged 15 and over are included. The Baseline results are at Scheme entry.

• The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022.

<sup>1</sup> PSG results in the previous quarter may be restated due to ongoing logic refinement and changes in data quality.

<sup>2</sup> ECEI was previously known as Early Childhood Early Intervention. It is now known as Early Childhood Approach (ECA).

<sup>3</sup> The NDIA's new participant check-in process ensures that every plan reassessment begins with a contact from the planner or partner to discuss options well before any reassessment date. Plans are extended automatically if they have not been reviewed before expiry so participants have continuity of support.

<sup>4</sup> The definition of Participant Reassessment Request is included under s48 of the NDIS Act (2013) and replaces the previous definition of plan review request.

Socioeconomic equity (%) <sup>5</sup>	104%	87%

- Total annualised plan budgets at 30 September 2022 were \$635m and payments from 1 July 2022 were \$124m.
- The number of active providers at the end of September is 1,526, growing by 3% in the quarter.
- Utilisation was 75% from 1 January 2022 to 30 June 2022, compared with an adjusted national benchmark of 76%.
- There were no service districts where the top 10 providers were providing more than 85% of payments.
- The average annualised plan budget at the end of September for active participants is \$66,400 (\$379,100 for participants in Supported Independent Living (SIL) and \$47,800 for participants not in SIL).
- The average payment for the 12 months ending 30 September 2022 is \$49,800 (\$326,100 for participants in Supported Independent Living (SIL) and \$33,700 for participants not in SIL).

<sup>1</sup> Active providers refer to those who have received payment for supporting Agency-managed participants.

<sup>2</sup> The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

<sup>3</sup> Total plan inflation consists of plan budget changes occurring at plan reassessment, as well as changes occurring within a plan, between reassessments. Previously the NDIA has not included the additional percentage changes in plan budgets that occur within a plan and before the scheduled reassessment, when reporting this metric, and this has underestimated the extent to which plans have increased.

<sup>4</sup> The annualisation calculation of inflation excludes the impact of plan indexation in July following the Annual Pricing Review. The impact of this indexation is then explicitly added to the annualised calculation being a 4.6% one-off increase nationally.

<sup>5</sup> Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).
