21 July 2025

NDIA CEO Rebecca Falkingham is currently on personal leave due to illness.

This is a very personal and deeply distressing time for her and her family. She has requested that all persons and organisations respect her privacy.

The thoughts of the NDIA Board and all Agency staff are with Rebecca.

The NDIA Board has appointed Scott McNaughton as acting CEO in line with standard Commonwealth Public Service processes to ensure the continued day to day operation of the NDIS and delivery of work to progress the Government NDIS reform agenda.

Enquiries about the NDIA and its administration of the NDIS should continue to be directed to the Agency.
