What we consider when we make decisions

This section contains information about what we consider when we make decisions under the National Disability Insurance Scheme (NDIS).

Our guidelines set out some of the NDIA's operational information. They are based on the NDIS Legislation and Rules.

They explain what we need to consider and how we make decisions based on the legislation.

We are working to update all of our guidelines to make them simple, clear and easy to use.

For all would we fund it documents, please visit would we fund it.

For more information on supports funded by the NDIS, please refer to our supports lists.
