The release of the Annual Financial Sustainability Report (AFSR) is part of the Agency's ongoing commitment to NDIS participants, the disability sector and other stakeholders for greater transparency.

The AFSR provides an assessment of the financial sustainability of the NDIS and is required under the NDIS Act (Section 180B).

It is produced using data at 30 June each year and a summary of each year's AFSR is included in the NDIA Annual Report.
