20 May 2022

Participants, their families, and carers have told us about the types of resources they need to support them to use their NDIS plan.

In response, the Agency has developed and launched the plan implementation directory. The directory will assist participants, their families and carers to find the right information to make the best use of their NDIS plan.

The directory is an accessible platform that has links to key topics that participants have said are important to help use their NDIS plan.

Resources include:

- new and updated web content
- animations
- Easy Read guides
- tip sheets
- budget calculator
- supports organiser.

We worked closely with participants to design and develop the content, with more than 575 hours of consultations and engagements conducted to inform the directory.

We thank all the participants who gave their time, feedback and advice to assist in developing the directory.

To learn more about the directory and find information to implementing an NDIS plan, visit the plan implementation directory page.
