Why we are making a one-off payment

As part of the 2021-22 Annual Pricing Review, the Agency committed to making up to an extra \$514 million available to eligible registered providers.

The payment is in recognition of the costs of keeping participants safe, particularly during COVID, and the significant overhead costs incurred by providers this year that were not previously taken into account.

These additional costs are separate to the specific COVID-19 costs amounts providers have claimed for personal protective equipment (PPE) or other COVID-19 related items from the Agency or participant plans as per the [COVID Addendum to the NDIS Pricing Arrangements and Price Limits](#).

Information about the one-off payment

This payment will be delivered as a one-off lump sum to eligible registered providers who provided eligible supports in 2021-22.

Eligible supports are support items that are:

- Supplied to Agency managed, or plan managed, participants
- In either the Assistance with Daily Living support category or the Community, Social or Economic Participation support category
- not directly related to the management of COVID-19 as delivered by the Provider, and
- in a setting that is not residential aged care.

In addition, they must be related to one of the following registration groups:

- 0104 High Intensity Daily Personal Activities
- 0107 Daily Personal Activities
- 0115 Assistance with Daily Life Tasks in a Group or Shared Living Arrangement
- 0125 Participation in Community, Social and Civic Activities
- 0133 Specialised Supported Employment
- 0136 Group and Centre Based Activities.

The payment will be calculated by the Agency and is not negotiable.

The total available is \$514 million, split between eligible providers.

The first round of one-off payments has a minimum threshold of \$5000.

A second round of one-off payments will have a minimum threshold of \$500.
