

5 April 2023

There is a new procedure that shows potential suppliers how they can make a complaint about an NDIA-led procurement or grant process.

Things this procedure does not cover include:

- complaints and feedback about NDIS provider service or support delivery – complaints teams in each state or territory manage this type of complaint.
- contractual disputes – this type of complaint is managed in accordance with the contract.

Visit the [Procurement and Grants](#) page for more details.
