## VALID Project Description

VALID will co-design a housing roadmap with NDIS participants and adults with intellectual disability. The housing roadmap and supporting tools and resources will be delivered to participants through workshops. The workshops aim to: provide and share information foster confidence promote discussion and questions increase awareness of home and living support options. Each workshop participant will develop a "My Housing Plan" which will reflect their individual home and living support needs and goals.

## University of Melbourne Project Description

University of Melbourne will co-design their housing roadmap with NDIS participants with multiple and complex support needs, in partnership with Deafblind Australia, and CHARGE Syndrome Australasia. University of Melbourne will use the Individualised Supported Living (ISL) Framework to develop, test, and deliver an online education support package using co-design principles inclusive of people with disability and their families. The online educational package aims to support families with adult children to: increase knowledge and navigate the tools provided to review and discuss current and future living arrangements identify suitable living arrangements navigate practical steps in establishing and maintaining a suitable home...
